

Name: _____

FORMULA #1

A. Name the following compounds

1. CaCl_2 _____
2. AgCl _____
3. MgO _____
4. NaBr _____
5. Al_2O_3 _____
6. KI _____
7. ZnCl_2 _____
8. Li_2O _____
9. BaO _____
10. CaBr_2 _____
11. MgCl_2 _____
12. AgI _____
13. ZnS _____
14. BaF_2 _____
15. Ca_3P_2 _____
16. Na_2O _____
17. AlN _____
18. NiBr_2 _____
19. CaC_2 _____
20. K_2O _____
21. H_2S _____
22. Na_3N _____
23. LiF _____
24. AlCl_3 _____
25. ~~NiO _____~~

B. Write the formulæ for the following compounds

1. sodium chloride _____
2. potassium bromide _____
3. calcium iodide _____
4. zinc oxide _____
5. silver sulphide _____
6. potassium sulphide _____
7. barium hydride _____
8. silver oxide _____
9. lithium chloride _____
10. hydrogen bromide _____
11. nickel chloride _____
12. lithium nitride _____
13. zinc bromide _____
14. sodium iodide _____
15. barium chloride _____
16. potassium hydride _____
17. aluminum sulphide _____
18. calcium silicide _____
19. calcium sulphide _____
20. magnesium phosphide _____
21. barium carbide _____
22. sodium hydride _____
23. magnesium fluoride _____
24. zinc nitride _____
25. aluminum carbide _____
